

C30i

Laptop, Tablet & Chromebook Charge Cart

Easily, effectively and safely charge your mobile devices. The C30i supports many kinds of mobile devices frequently used in classrooms and offers all you need to store, secure and charge for better mobility in classrooms or schools with limited available space. The C30i's intelligent charging mechanism optimizes electrical current allocation and total charge time. In addition, its sturdy, fully-welded steel frame structure with a three-point locking mechanism makes it the perfect solution for storage. The C30i's compact design features slim dividers and individual storage bays for power adapters, making cable management easier and ensuring devices better organized.

Intelligent charging mechanism

The C30i features an intelligent charging mechanism that dynamically evaluates the power demand of devices and efficiently allocates electrical current among them to ensure circuit overload does not occur.

Wide charging slots for a wide range of devices

The C30i's storage bays can fit even the widest mobile devices and laptops, and are located on 3 slide-out shelves placed on industrial-grade slide rails, easing management and providing for ergonomically friendly usage. Power adapters can be conveniently stored in the individual holder, which can be accessed from the rear end of the cart.

Check charging status in just one glance

The 3 LED status lights on the C30i allow teachers and students to see the charging status of each shelf with just one glance, without having to unlock the doors and check each device one by one.

Secure your investment

Your devices will be safely secured within the C30i's sturdy frame and steel doors outfitted with a three-point locking mechanism. This extra-tough design effectively protects against the threats of theft and vandalism.

Incredibly mobile design

The C30i is designed to maximize user ease and convenience, with a compact structure that can fit in even the most space-starved schools and classrooms, but is still spacious enough to fit all a class's mobile devices. Not only does the C30i have a small footprint, it also provides a convenient work surface that offers the perfect space for integrating mobile devices, AVer visualizers, and more into your lessons!

C30i

Laptop, Tablet & Chromebook Charge Cart

product specifications	
storage / charging capacity	up to 30 iPads, tablets, Chromebooks and / or laptops under 14"
LED status indicators	solid blue: Charging
lockable doors	yes, front door with three-point lock
storage shelves	three 10-bay shelves
slide-out shelves	yes
cable management	individual AC adapter holder & repositionable cable clips
wall mount hook	yes
swivel casters	yes, four 5" casters (2 lockable)
intelligent charging system	yes
sync function	no
auxiliary power outlet	yes, 2 country-specific AC courtesy outlets two different power specification provided by region: AC 220V~240V, 50/60Hz, 2A AC 100V~120V, 50/60Hz, 4A
power system	two different power specification provided by region: AC 220V~240V, 50/60Hz; input: 8A, output: 6A AC 100V~120V, 50/60Hz; input: 12A, output: 8A
slot dimensions (W x H x D)	W = 34mm (1.34") H = 260mm (10.24") D = 380mm (14.96")
cart dimensions (W x H x D)	W = 637mm (25.08") H = 1037mm (40.83") D = 686mm (27.01")
cart weight	76kg (167lbs)
warranty	10-year limited warranty for cart and tray 5-year limited warranty for electrical parts
