

AVerVision F15 Interactive Visualizer

Watch your lessons take flight, as the sharp, vivid imaging achieved through this budget-friendly visualizer's 5-megapixel camera sensor and full HD1080p output spark your students' imagination. Capture high resolution images of precious classroom moments and save them to the internal/external memory or use the expansive A3 shooting area to effortlessly show textbook content and large visual aids in their entirety. What's more, you can realize the full potential of the F15 visualizer through the handy presentation tools and clever teaching aids of our A+ Suite visualizer software.

Smart solution for cash-strapped schools

AVer understands the financial pressures facing schools and the negative impact that can have on effectively educating today's youths. F15 presents schools with a high-quality visual presentation tool at a price they can always afford.

Full HD1080p output at 30fps

Experience crystal clear, blur-free images with vivid, true-to-life colors during any live demonstration through the visualizer's 5-megapixel camera sensor and full HD1080p at 30fps output capabilities.

Expansive A3 shooting area

View oversized documents, large models and open textbooks from top to bottom without having to pan the image or adjust the camera head thanks to F15's A3 landscape shooting area. In addition, users can take advantage of F15's 16X total zoom to get a closer look at the fine details.

Extended storage/playback options

Save hundreds of high resolution (5M) images to an SD or SDHC card and take the images captured via the visualizer home with you, or playback image files already stored to your card when working with F15 in class.

AVer Visualizer Software

Explore new possibilities with our A+ Suite visualizer software

- ▶ Integrate live visualizer images seamlessly into existing teaching material, while maintaining easy access to visualizer functions, like annotation and recording.
- ▶ Use OCR to scan, digitize and insert printed text directly into PowerPoint®, Word® and Excel®, or bring text to life with text-to-speech (TTS).
- ▶ Make the excitement of class accessible from home by quickly uploading visualizer images/recordings to YouTube, Facebook, Twitter, Picasa and more.
- ▶ Stream live video from a second visualizer, an AVer TabCam or a webcam over the video from your visualizer in picture-in-picture mode.
- ▶ Create your own media library full of recorded videos and captured images, then compare the saved images side-by-side with live images from a visualizer, AVer TabCam and/or webcam.
- ▶ View and adjust live visualizer images directly via an interactive whiteboard (IWB).

AVerVision F15

Interactive Visualizer

product specifications

image sensor	1/2.5" CMOS color image sensor
total pixels	5M
output resolution	full HD1080p (1920 x 1080)
TV lines	1000 (max.)
zoom	16X total zoom (2X AVerZoom™ + 8X digital zoom)
frame rate	30fps (max.)
focus	auto / manual
shooting area	larger than A3 landscape
image rotation	electronic rotation 0° / 90° / 180° / 270°
internal storage	240 images (max.)
external storage	SDHC (32GB max.)
image effects	color / b&w / negative / mirror / freeze
image adjustments (white balance / exposure)	auto / manual
